

Antonella Pienaar's Recovery Testimony from Breast cancer

Feb 2023

NB – The Afrikaans version is lower down 😊.

It is four years since I was diagnosed with breast cancer and it's time for me to testify about God's goodness and healing power in my life.

On January 31st 2019 I was in the specialist's office ready to hear the final result of my biopsy. It being positive came as no surprise and a double mastectomy and chemo was suggested. More scans and tests were conducted and after I visited the oncologist decided rather than to start treatment I would like to explore alternative healing methods.

1. I changed my diet to that of Keto-Vegan
2. I started to get her more information about this subject and two books completely changed my understanding about what cancer is and how it can be treated and healed.
 - Radical Remission, Surviving Cancer Against all odds. Dr Kelly A Turner
 - Cancer..... You can Heal Yourself. Dr Janey Little.

At this stage I heard about Dr F Van Der Riet, an integrative medical practitioner, a forerunner in the field of alternative healing. The treatment I received included light therapy, NAD, Rife and ICG, a revolutionary treatment which started shrinking the tumor significantly.

I also invested in an ozone machine for home treatment.

After the initial treatments Dr Van Der Riet referred me to LifeShine for further treatments such as intravenous ozone, Hocatt, Rife, colonics for detoxification and lymph massages. I went onto Chinese herbal medicine to balance and strengthen my immune systems.

During this time I crossed paths with Johan Jacobs and I was impressed at his knowledge and understanding of the body and it's healing abilities. I went to see him about my diet but was challenged to have my teeth checked out as studies proved that each tooth is linked to a specific organ in the body and decay, amalgam fillings and root canals could have a detrimental effect on the body such as cancer. I took Johan's advice seriously and had my teeth checked out, and low and behold all 3 the teeth linked to the right breast were root canals! Needless to say, they were immediately removed. I also bought his book "Go Natural" and followed his guidelines and some of the delicious recipes he offers in the book.

As a final so called, nail-in -the- coffin of cancer in my life I opted for high doses of Vit C intravenously. This repairs the damaged cells. And for the past two years my blood works are proof of my healing.

I thank my Saviour, Jesus Christ, for being with me during this journey, guiding me and teaching me, as well as the people he brought into my life for a time like this.

Dis al 4 jaar na my diagnose van borskanker en ek besef dat ek nie meer anders kan as om te getuig van God se goedheid en genesende krag nie.

Op 31 Januarie 2019 sit ek in die Borsdokter se spreekkamer om die biopsies resultate te bespreek. Die uitslag is positief en 'n dubbele mastectomie en chemo word voorgestel. Dit was vir my geen verassing nie want die Heilige Gees het reeds twee dae vantevore vir my "gesê" dat dit positief gaan wees.

Nog toetse word gedoen en nadat ek die onkoloog gesien het besluit ek om drie maande tyd te neem om ander genesingsmetodes te ondersoek.

1. Ek verander onmiddellik my dieet na Vegan.
2. Lees twee boeke wat my hele uitkyk op kanker en wat dit is, verander.
 - *Radical Remission, surviving cancer against all odds. Dr. Kelly A Turner
 - *Cancer..... You can heal yourself. Dr Janey Little

Ek beland op hierdie stadium by Dr Van Der Riet, 'n geïntegreerde mediese praktisyn, wat 'n voorloper op sy gebied is. Hy behandel my Met ligterapie, NAD, Rife & ICG, 'n revolusionêre behandeling wat onmiddellik die gewas laat begin wegkrimp.

Ek belê op hierdie stadium in 'n osoon masjien vir tuisbehandeling.

Dr van der Riet verwys my toe na Lifeshine, 'n Gesondheids Kliniek op die grens tussen Somerset Wes en Stellenbosch vir verdere behandeling. Hier ontvang ek binne-aarse osoon, limfmasserings, kolon detoksifikasie, hoccatt, rife en ek begin ook oefen. Vir 'n kort tydjie gebruik ek ook kannabisolie en setpille.

Gedurende hierdie tyd kruis my pad met Johan Jacobs. Ek gaan sien hom oor my dieet maar word dadelik deur hom uitgedaag om na die toestand van my tande te laat kyk. Volgens studies is elke tand verbind met 'n orgaan in die liggaam. Die uitdaging was dat ek moet laat kyk vir amalgaamvulsels en / of wortelkanaalbehandelings in daardie tande.

Nodeloos om te sê al drie tande wat verbind word met die regterbors was wortelkanaalbehandelde tande! Ek het onmiddellik werk daarvan gemaak om daardie tande te verwyder. Ek het ook sy boek "Go Natural" gekoop en van sy resepte en riglyne begin volg.

In 2021 het ek besluit om hoë dosisse Vit C binne-aars as finale spyker in die doodskis van kanker in my lewe te sit. Ek is na Dr AJ Simpson in Stellenbosch wat spesialiseer hierin. Bloedtoetse geneem aan die begin van 2022 het my totaal skoon verklaar en nou na nog 'n jaar is dit vir 'n tweede keer bevestig dat kanker oorwin is!

Vir hierdie pad van genesing kan ek nie anders as om Jesus Christus my Verlosser, te eer vir Sy leiding in elke stap, en vir die mense wat Hy oor my pad gebring het nie!
